

## THE NEXT STEP... ON CREEKSIDE DRIVE

The passion of the Creek is for reaching disadvantaged youth both locally and globally. Our primary focus right here in Walnut Creek is first generation Latino students living on Creekside Drive.

Creekside immigrant families face a strenuous battle trying to provide for their children faced with an increasingly complex job market and language and cultural barriers. This puts an immense strain on family life and adversely impacts their ability to raise and educate their children.

**Our purpose** with the Creekside community is to:

- Express the heart of God through compassion and service
- Draw students & families into the message and story of God
- Integrate this work into the culture and DNA of The Creek
